poslite mi Vase poziadavky na technicke zabezpecenie Vasich prezentacii na IIT.SRC 2014 (mrskova@fiit.stuba.sk).

Kedze je to sutaz a mali by ste mat rovnake podmienky, tak jeden tim moze mat najviac jeden monitor, ak ho potrebuje. Nezabudnite uvadzat (ak potrebujete) aj el. pripojku.

1064	11 colossus	New	Task	Prezentacna instancia pre TP-Cup	Samuel Molnár	2014-04-04	2014-04-27	0

Pre potreby prezentacie na TP-Cupe bude treba, pravdepodobne, vytvorit dalsiu prezentacnu/demo instanciu Askalotu, kde:

- bude povolena registracia (aj pre pouzivatelov, ktory nemaju AIS konto)
- bude nasadena vzdy stabilna verzia (preto nemozeme pouzit na prezentovanie aktualny staging)
- budu vzorove data (mozno by bolo fajn, keby sa tam pravidelne preklapala databaza z produkcie)
- bude mozne volne klikat/vytvarat otazky/odpovedat bez toho, aby sme si kazili produkcne data

Zaroven sa moze tato prezentacna instancia uviezt v ramci webu timu, na githube, na PeWe Try it! atd. Teraz nikto mimo fakultu nema sancu si ten system vyskusat a prave pre porotcov na TP-Cupe z firiem to moze byt zaujimave.

2014-04-09 1/10

Prvykrat by sa nam tato prezentacna instancia asi zide pocas IIT.SRC (29.4.2014), takze zatial to este ma cas.

DEPRECATION WARNING: It looks like you are eager loading table(s) (one of: questions, answers, labelings) that are referenced in a string SQL snippet. For example: | ETA: 00:03:14

Post.includes(:comments).where("comments.title = 'foo'")

Currently, Active Record recognizes the table in the string, and knows to JOIN the comments table to the query, rather than loading comments in a separate query. However, doing this without writing a full-blown SQL

2014-04-09 2/10

parser is inherently flawed. Since we don't want to write an SQL parser, we are removing this functionality. From now on, you must explicitly tell Active Record when you are referencing a table from a string:

Post.includes(:comments).where("comments.title = 'foo'").references(:comments)

If you don't rely on implicit join references you can disable the feature entirely by setting `config.active\_record.disable\_implicit\_join\_references = true`. #### Jojo deleguj:

sucastou sutaze TP CUP je aj prezentacia vasich napadov, vasho timu na verejnosti.

To urobime cez portal robime.it, ktory podporuje nasu sutaz.

V tejto etape to znamena, ze treba, aby ste

v termine najneskor do IIT.SRC

spracovali kratku textovo obrazovu prezentaciu na portal robime.it.

Prezentacia (text, obrazky) by mala predstavit vas tim (kto ste, v com ste dobri),

2014-04-09 3/10

produkt, ktory vyvijate (co je na nom inovativne, prinosy pre pouzivatelov) a aj dalsie veci, ktore mozu byt zaujimave pre verejnost (vas pribeh, ako sa vas projekt vyvijal, co ste sa naucili, co nabuduce spravite inac).

Prezentacia by nemala byt velmi dlha, aby si ju co najviac ludi precitalo. Mozete kludne pouzit cokolvek aj z toho co budete pripravovat ako odpovede na otazky do dotaznika, ktory som pred chvilou poslala. Preto to posielam teraz, ze to je mozno dobre spravit aj naraz a neodkladat.

Ked prezentaciu vasho timu a projektu zverejnite na portali, poslite mail s odkazom p. Mrskovej (mrskova@fiit.stuba.sk).

Nezabudnite v prezentacii sa jasne identifikovat, ze ste z FIIT STU a toto je vas projekt v ramci sutaze TP CUP.

Jojo deleguj:

Mili studenti,

kazdorocne spracuvame informacie o jednotlivych timoch zucastnenych v sutazi TP CUP, toto pouzijeme pre porotcov a tiez na stranke TP CUPu na prezentaciu vasich projektov a vasich timov.

Plus z toho mozete cokolvek pouzit do blogu na robime.it, ktory treba, aby ste vytvorili (napisem k tomu v samostatnom maili).

Prosim Vas preto o vyplnenie prilozeneho dotaznika, kde sa pokuste vystihnut vsetko to najdolezitejsie o Vasom projekte a o Vas. Dotazniky budu po spracovani uverejnene na webovej stranke TP Cupu, vybrane casti aj v univerzitnom casopise Spektrum.

Plus prilozte FOTKU TIMU.

Vyplnene dotazniky a fotografiu poslite p. Mrskovej (<u>mrskova@fiit.stuba.sk</u>) najneskor do stvrtka 10.4.2014.

Tu je odkaz na minulorocne timy
