1086	11 colossus	New	Bug	Pridavanie substring tagov k otazke	Samuel Molnár	2014-04-18		0

Vsimol som si, ze ked je v systeme tag "testovanie" a chcem pridat tag "test", tak je to celkom problem. Autosuggest mi navrhne len "testovanie" a pridat "test" sa da len tak, ze ukoncim zadavanie tagu stlacenim ciarky. Nie je to velmi intuitivne.

Nedalo by sa to vyriesit tak, ze by tam bola neustale moznost pridat aktualny string ako novy tag? Neviem co by to znamenalo pre tu kniznicu, tak, prosim, poradte. Ak je to problem, tak to nemusime riesit.

Dakujem.

1084	11 colossus	New	Task	Fixed poloha hornej listy			2014-04-17		0

Pokial to bude mozne, vratil by som fixed polohu hornej listy. Nazbieralo sa uz viac spatnej vazby od studentov, ze im to tak viac vyhovovalo.

Inak napadlo mi aj celkom pekne riesenie ako, ked kliknem na notifikaciu, tak aby ma to potom odskrolovalo o nieco vyssie. Cez jQuery spravim taketo nieco:
- priamo vo funkcii kde highlightujem element, mam vlastne ID elementu, na ktory mam nascrolovat
- zoberiem ten element, vypocitam si horny offset tohto elementu (jQuery funkcia offset)
- ak je offset < XY, tak posuniem scroll stranky o XY px

Ked bude refreshovat stranku, tak sa nestane, ze ma to bude iterativne posuvat o XY pixelov.

Malo by to byt par riadkov v jQuery (teda presne 2). Ak by ste nevedeli ako na to, tak vam ich mozem pripadne pomoct napisat.

Dakujem!

1071	09 immortal	In Progress	Task	cancan pre prava na kategorie		Rastislav Dobšovič	2014-04-01	2014-04-15	80
1064	11 colossus	New	Task	Prezentacna instancia pre TP-Cup		Samuel Molnár	2014-04-04	2014-04-27	0

Pre potreby prezentacie na TP-Cupe bude treba, pravdepodobne, vytvorit dalsiu prezentacnu/demo instanciu Askalotu, kde:

  - bude povolena registracia (aj pre pouzivatelov, ktory nemaju AIS konto)
  - bude nasadena vzdy stabilna verzia (preto nemozeme pouzit na prezentovanie aktualny staging)
  - budu vzorove data (mozno by bolo fajn, keby sa tam pravidelne preklapala databaza z produkcie)
  - bude mozne volne klikat/vytvarat otazky/odpovedat bez toho, aby sme si kazili produkcne data

Zaroven sa moze tato prezentacna instancia uviezt v ramci webu timu, na githube, na PeWe Try it! atd. Teraz nikto mimo fakultu nema sancu si ten system vyskusat a prave pre porotcov na TP-Cupe z firiem to moze byt zaujimave.

Prvykrat by sa nam tato prezentacna instancia asi zide pocas IIT.SRC (29.4.2014), takze zatial to este ma cas.

1061	10 archon	New	Bug	padaju testy			2014-04-04		0

1) Following user when following from users page aborts user as follower
    Failure/Error: click_link "user-#{other_user.id}-follow"

          Capybara::ElementNotFound:
           Unable to find css "#comment-4-deleting"
        # ./spec/features/deleting_spec.rb:83:in `block (3 levels) in &lt;top (required)&gt;'
     6) Question behaves like Deletable .mark_as_deleted_recursive! find associations and set deleted, deletor and deleted_at attribute
        Failure/Error: expect(resource.comments.first.deleted).to eql(true)
        NoMethodError:
         undefined method `deleted' for nil:NilClass
        Shared Example Group: "Deletable" called from ./spec/models/question_spec.rb:12
        # ./spec/models/concerns/deletable_spec.rb:43:in `block (3 levels) in &lt;top (required)&gt;'
```

DEPRECATION WARNING: It looks like you are eager loading table(s) (one of: questions, answers, labelings) that are referenced in a string SQL snippet. For example: | ETA: 00:03:14
    Post.includes(:comments).where("comments.title = 'foo'")

Currently, Active Record recognizes the table in the string, and knows to JOIN the comments table to the query, rather than loading comments in a separate query. However, doing this without writing a full-blown SQL parser is inherently flawed. Since we don't want to write an SQL parser, we are removing this functionality. From now on, you must explicitly tell Active Record when you are referencing a table from a string:
    Post.includes(:comments).where("comments.title = 'foo'").references(:comments)

If you don't rely on implicit join references you can disable the feature entirely by setting `config.active_record.disable_implicit_join_references = true`. (called from *app_views_questions* _questions_html_erb__1370175225565475469_85179540 at /home/samuel/projects/team/askalot/app/views/questions/_questions.html.erb:20)

```
  7) User Profile with registered user edits user social links
     Failure/Error: fill_in 'user_youtube',       with: 'http://youtube.com/'
     Capybara::ElementNotFound:
      Unable to find field "user_youtube"   # ./spec/support/capybara_helpers.rb:11:in `fill_in'     # ./spec/features/user_profile_spec.rb:86:in `block (3 levels) in <top (required)>'
    8) User Profile with registered user shows user profile
        Failure/Error: click_link user.nick

1060	11 colossus	New	User Story	aspon o trochu viac mobile-friendly-layout	Pavol Zbell	2014-04-03		0
1055		In Progress	Support	prezentacia timu na portali robime.it	Jozef Harinek	2014-04-03		80

Jojo deleguj:

sucastou sutaze TP CUP je aj prezentacia vasich napadov, vasho timu na verejnosti.
To urobime cez portal robime.it, ktory podporuje nasu sutaz.

V tejto etape to znamena, ze treba, aby ste
v termine najneskor do IIT.SRC
spracovali kratku textovo obrazovu prezentaciu na portal robime.it.

Prezentacia (text, obrazky) by mala predstavit vas tim (kto ste, v com ste dobri),
produkt, ktory vyvijate (co je na nom inovativne, prinosy pre pouzivatelov) a aj dalsie
veci, ktore mozu byt zaujimave pre verejnost (vas pribeh, ako sa vas projekt vyvijal,
co ste sa naucili, co nabuduce spravite inac).

Prezentacia by nemala byt velmi dlha, aby si ju co najviac ludi precitalo. Mozete
kludne pouzit cokolvek aj z toho co budete pripravovat ako odpovede na otazky
do dotaznika, ktory som pred chvilou poslala. Preto to posielam teraz, ze to je
mozno dobre spravit aj naraz a neodkladat.

Ked prezentaciu vasho timu a projektu zverejnite na portali, poslite mail s odkazom
p. Mrskovej (mrskova@fiit.stuba.sk).

Nezabudnite v prezentacii sa jasne identifikovat, ze ste z FIIT STU a toto je vas projekt
v ramci sutaze TP CUP.

| 1028 | 09 immortal | In Progress | Bug | Zoradenie v tabke Otazky - Aktualne | Jozef Harinek | 2014-03-24 | | 0 |

Ktore aktivity menia datum poslednej zmeny zmeny pri otazkach?

Napr. v zozname otazok pre tag PSI je ako prva otazka (https://askalot.fiit.stuba.sk/questions/32), ktorej datumy odpovedi su vo februari.

Datum poslednej zmeny sa ma menit len ak sa prida nova odpoved/komentar (vid #891, "to znamená, že keď sa pridá nový komentár alebo odpoveď tak sa tento atribút updatne a ten pomôže k tomu zoradeniu").

Sposobuje to trochu chaos v tom, co sa aktualne riesi (uz mi to hlasil Karol).

vsetci dobre vieme ze if a case nepatria do OOP, spravne OOP sa robi bez ifov ;)

takze Decorator pattern bejbe https://github.com/drapergem/draper

ziskame:

- menej balastu v helproch
- ovela lepsiu spravovatelnost kodu do buducna
- kvalitnejsi OO navrh nasho systemu

cc Dusan

981	09 immortal	New	User Story	administrácia kategorii a changelogu	Peter Páleník	2014-03-18	2014-04-01	59

  - pribudne zalozka Administracia
V nej tabky
  - kategorie
    - tusim cez modal
    - nazov kategorie
    - defaultne tagy
    - akcie
      - edit
      - delete
      - new
  - Changelog
    - formular na vlozenie changelogu

980	09 immortal	New	User Story	prava na kategorie	Rastislav Dobšovič	2014-03-18	2014-04-15	58

Role na rozne kategorie, v ktorej som ucitel, v ktorej som student, etc.

  - v CanCan pozriet multi role model - linka je v user.rb (...alebo ability.rb?)
  - refaktorovat role v ability.rb
  - default je kazdy student
